Cargills Bank posts Profit after Tax Rs. 254 Million for the nine months ended 30 September 2026

Financial Highlights

- Profit after tax stands at Rs. 254 Mn for the nine months ended 30 September 2026
- Net loan book grows by 15% (Rs. 9.5 Bn) compared to December 2025 to reach Rs. 72.6 Bn (YoY growth of 20%)
- Impaired loans (net of stage 3 impairment) to total loans (net basis) ratio at 5.79%
- Total assets grow by 19% compared to December 2025 to reach Rs. 109.2 Bn (YoY growth of 23%)
- Customer deposits grow by 24% to reach Rs. 82.1 Bn compared to December 2025 (YoY growth of 31%)
- Total Capital Ratio at 17.60%
- Capital base strengthened following the equity capital raise of Rs. 2.5 Bn through a Rights Issue earlier in the year

Cargills Bank's results for the nine months ended 30 September 2026 reported a profit before tax of Rs. 513 Mn reflecting a 17% drop when compared to the corresponding period in 2025. This was primarily driven by a significant Rs. 380 Mn reduction in total other income alongside an 11% increase in total operating expenses and higher impairment charges, which impact was partially offset by growth in both net interest income and net fee and commission income.

Net interest income rose to Rs. 3,419 Mn, a 25% increase over the nine months of 2025. This growth was primarily driven by loan growth reinforced with a strategic focus on repricing of deposits and advances to reflect the market conditions to manage the NIM in an optimal manner, as reflected by the increase in NIM from 4.38% as at end 2025 to 4.65% in the period under review.

Net fee and commission income recorded an increase of Rs. 103 Mn compared to corresponding period in 2025. This 15% increase was supported by growth in fee income from deposits, loans and trade services along with decrease in fee expenses related to credit and debit cards.

Further, total other income for the period decreased by 76% to Rs. 120 Mn. This was largely due to higher realized capital gains on the derecognition of financial assets and net gains from financial assets at fair value through profit or loss reported in the nine months of 2025.

Total operating expenses increased by 11% to Rs. 3,076 Mn. Personnel expenses rose by 17% due to salary increments and adjustments aimed at reflecting market conditions and retaining talent. Depreciation and amortization grew by 35%, primarily driven by investments in information technology and other infrastructure upgrades. The Bank's Cost-to-Income Ratio stood at 71.13%, compared to 70.68% as at 31 December 2025.

The Bank significantly narrowed its Other Comprehensive Loss to Rs. 124 Mn, a 76% improvement from the Rs. 514 Mn loss in the nine months of 2025. This was supported by lower fair value losses on financial assets measured at fair value through OCI. Consequently, Total Comprehensive Income turned positive at Rs. 130 Mn, reflecting a 165% recovery in comparison to the corresponding period in 2025.

The Banking segment of the operating segments was the primary driver of performance, with profit before tax rising to Rs. 539 Mn from Rs. 114 Mn in the nine months of 2025. This growth was fueled by a doubling in segment net interest income, which reached Rs. 2,057 Mn. The Treasury and Investments segment reported a loss before tax of Rs. 26 Mn, a decrease from the previous period's high base of Rs. 506 Mn profit. This decrease was primarily due to lower realized capital gains on the derecognition of financial assets and reduced net gains from financial assets at fair value through profit or loss.

The Bank demonstrated prudence in asset quality through rigorous scrutiny and recovery actions. Total impairment charge for the period was Rs. 310 Mn, representing an increase from the Rs. 162 Mn charge in the nine months of 2025.

The Bank's gross asset quality showed an underlying improvement as the Impaired Loans (Stage 3) to Total Loans (Gross basis) dropped to 10.78% from 12.00% as at end 2025. Impaired Loans (Net of Stage 3 Impairment) to Total Loans (net basis) Ratio improved to 5.79% as of 30 September 2026 compared to 6.52% in December 2025 and 7.55% as of 30 September 2025. The Stage 3 Provision Cover was maintained at 46.29% vs 45.65% as at end 2025.

Cargills Bank continues to maintain Capital Adequacy and Liquid Assets Ratios well within regulatory requirements. The Total Capital Ratio improved to 17.60% from 17.12% as at end 2025. The Liquidity Coverage Ratio (LCR) - Rupee was at 125.21% while the LCR - All Currency was at 123.65%. The Net Stable Funding Ratio (NSFR) stood at 120.85% as at the reporting date.

Total assets of the Bank as of 30 September 2026 at Rs. 109.2 Bn reflected an increase of Rs. 17.5 Bn or 19% since December 2025 (YoY growth of 23% since September 2025). The net loan book posted a steady growth of Rs. 9.5 Bn or 15%, from Rs. 63.1 Bn to Rs. 72.6 Bn (YoY growth of 20% since September 2025).

Customer deposits grew by 24% to reach Rs. 82.1 Bn as at the reporting date (YoY growth of 31% since September 2025), reflecting deepening customer trust, successful deposit mobilization strategies and onboarding new customers.

Earlier in the year, the Bank successfully raised equity capital of Rs. 2.5 Bn by way of a Rights issue of ordinary voting shares with the objectives of meeting regulatory requirements, enhancing its capital base and supporting loan growth. In concluding this exercise, the trust and confidence placed by the investors is appreciated and acknowledged.

Cargills Bank PLC

Assets and Liabilities Measured at Fair Value - Fair Value Hierarchy

Fair Value Hierarchy

The Bank measures the fair value using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurement.

• Level 1 : Fair value measurement using unadjusted quoted market prices

Inputs that are quoted market prices (unadjusted) in an active market for identical instruments.

• Level 2 : Fair value measurement using significant observable inputs

Inputs other than quoted prices included within Level 1 that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using;

(a) quoted prices in active markets for similar instruments,

(b) quoted prices for identical or similar instruments in markets that are considered to be less active, or

(c) other valuation techniques in which almost all significant inputs are directly or indirectly observable from market data.

•Level 3 : Fair value measurement using significant unobservable inputs

Inputs that are unobservable.

This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation.

Fair value estimates obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent that the Bank believes that a third party market participant would take them into account in pricing a transaction.

Financial instruments measured at fair value - fair value hierarchy

The following table provides an analysis of assets and liabilities measured at fair value as at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorised. These amounts were based on the values recognised in the Statement of Financial Position.

Assets and Liabilities Measured at Fair Value - Fair Value Hierarchy

Financial instruments not measured at fair value - fair value hierarchy

For financial assets and liabilities with short term maturities or with short term re-pricing intervals, it is assumed that the carrying amounts approximate to their fair value. This assumption is also applied to demand deposits and savings deposits which do not have a specific maturity.

The following table provides an analysis of assets and liabilities not measured at fair value as at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorised.

	Level 1 Rs. '000	Level 2 Rs. '000	Level 3 Rs. '000	Fair Value Rs. '000	Carrying Amount Rs. '000

Explanatory Notes

1) The Financial Statements of the Bank have been prepared in accordance with the Sri Lanka Accounting Standards (SLFRSs/LKASs) issued by The Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka). There were no changes to Accounting Policies and methods of computation since publication of the Annual Report for the year ended 31 December 2025.
2) These Interim Financial Statements of the Bank have been prepared in compliance with the requirements of the Sri Lanka Accounting Standard - LKAS 34 on 'Interim Financial Reporting' and provide the information as required in terms of Listing Rule 7.4 of the Colombo Stock Exchange.
3) The Bank should maintain a Total Tier 1 Capital Ratio 250 basis points above the minimum applicable until it complies with a regulatory minimum capital requirement of LKR 20 Billion. It has been granted until the end of 2029 to comply with this requirement with time-based targets to enhance minimum capital balance and to reduce the combined shareholding of the major shareholders as stated in Note 8 below.
4) The Bank continued to reassess its individually significant loan portfolio as of 30 September 2026 and incorporated adequate impairment provisions on identified customer segments to reflect increased credit risk since initial recognition. Accordingly, the impairment provision also includes management overlays where higher impairment charges were considered as a prudential measure in assessing the elevated risk profiles of borrowers.

   Additionally, the Bank revised the cash flow assumptions for customers who were previously impaired, ensuring that any deterioration/improvement in the credit quality of such customers has been appropriately addressed during the period.

   The Bank estimated its Expected Credit Loss (ECL) for collective impairment as at the reporting date based on the updated Probability of Default flow rates as at 31 December 2025, Economic Factor Adjustment (EFA) and Loss Given Default (LGD) values as at 30 September 2026.

   The exchange impact on impairment charges on loans and advances denominated in foreign currency was recognised in Net Other Operating Income where the corresponding exchange gains/(losses) were recognised.
5) During the quarter, there were no material changes in the composition of assets, liabilities and/or contingent liabilities, other than those disclosed above.
6) There was no pending litigation of a material nature against the Bank.
7) All known expenses have been provided for in these Interim Financial Statements.
8) Central Bank of Sri Lanka (CBSL) vide its letter to the Bank dated 31 December 2025 provided an extension to Cargills Bank PLC to raise approximately Rs. 2.5 Bn in external capital through market mechanisms, with the objective of reducing the major shareholders' stake to 50% by 31 March 2026.

   The Bank complied with the this requirement by way of raising the aforesaid amount through a Rights issue of ordinary voting shares during the year.

   Further, CBSL vide its letter to the Bank dated 19 February 2026 directed the Board of Directors of Cargills Bank PLC to meet interim capital targets and the shareholding limits of the major shareholders, Cargills (Ceylon) PLC and CT Holdings PLC, as set out in the table below in order to meet the minimum capital requirement of Rs. 20 Bn by end 2029.

   Interim Targets on Capital Augmentation & Shareholding Limits

By end of	Requirement to maintain the minimum balance of total capital	Target to reduce the combined shareholding of the major shareholders
31.03.2027	Rs.16.0Bn	45%
31.03.2028	Rs.17.5Bn	35%
31.03.2029	Rs.19.0Bn	25%
31.12.2029	Rs.20.0 Bn	15%

9) No circumstances have arisen since the reporting date which would require disclosure in these Financial Statements.
